

I listen to K-LOVE every day it is the way I start my day each morning. I hear the most uplifting inspirational music, plus I am constantly being blessed and edified. I am brought up to date on world events and know that I am hearing the truth. K-LOVE is the only station in this area that plays the type music I prefer to listen to and also the station that I trust to deliver wholesome programming that the entire family can listen to without the fear that some programs would be unsuitable for younger listeners. I am positive that I am not alone in my opinion because just yesterday the vehicle in front of me had a K-LOVE sticker on their bumper and I thought wow their listening to this same great song and what a way to begin your day. If I didn't have K-LOVE to listen to I would have to carry audio tapes and cd's with me just to hear the type of music I prefer. I am a nurse and being on call all hours it's nice to know that 24 hours a day I can be blessed and encouraged. The loss of this station would leave a huge hole in my daily routine.
